

TEAM 1ST TECHNOLOGIES partners with OTSAW INC to drive the robotic solutions market in the US

USA, January 17, 2024 – TEAM 1ST TECHNOLOGIES (TEAM 1ST), a renowned service robot solutions company based in Albuquerque New Mexico and OTSAW Digital Inc. (“OTSAW INC”), a subsidiary of the global robotics company OTSAW are thrilled to announce their strategic collaboration with this dynamic partnership.

As pioneers in their fields, TEAM 1ST and OTSAW INC are united in their commitment to pushing the boundaries of robotics. This partnership aims to leverage their collective expertise, experience and resources to drive innovation and create groundbreaking solutions that will have a profound impact on industries and people's lives.

This collaboration aims to combine OTSAW INC's deep knowledge of robotic technologies with TEAM 1ST's track record in providing and deploying service robot solution integration, deployment and support.

OTSAW, the parent company of OTSAW INC, operates globally with offices in three key locations, Singapore, Burlington, MA, and Augsburg, Germany. They specialize in robotics and are known for their disruptive technologies, particularly in sectors like interior and exterior security, healthcare, cleaning, material transport, vacuuming and delivery, where they deploy autonomous robots and automated guided vehicles (AGVs).

TEAM 1ST's primary focus is on the Facility Management Industry, Fortune 500, Power Companies, Data centers, Municipalities and more, serving areas such as Hospitals & Healthcare, Commercial Airports, Hotels & Hospitality, Commercial & Industrial Spaces, Retail &

Shopping malls, or any other entity that requires automated exterior and interior security enhancement, delivery, material transport, commercial vacuuming and disinfecting service robots to augment their existing operational frameworks. TEAM 1ST and OTSAW are dedicated to ongoing innovation with the goal of expanding their disruptive impact into additional sectors in the future. Their versatile robots transcend industry boundaries, offering limitless potential and fantastic ROI across various sectors and spaces.
